

# WreathMaster Clamp Machine (Patented)

The **WreathMaster** eliminates the need for hammering clamps from the top after you have closed them. It saves time over other machines. Puts up to **20% more** greens in a standard clamp ring. (**especially useful** when wreaths are made early (shrinkage) or for large rings that need a wider face).

WreathMaster with Table

## **WreathMaster with Table**

Table is unpainted.

**#SWMT20      \$399.00**

## **Without Table**
